DETAILED ACTION

Election/Restrictions

1. Restriction is required under 35 U.S.C. 121 and 372.

This application contains the following inventions or groups of inventions which are not so linked as to form a single general inventive concept under PCT Rule 13.1.

In accordance with 37 CFR 1.499, applicant is required, in reply to this action, to elect a single invention to which the claims must be restricted.

Group I, claim(s) 1-10 and 15-18, drawn to Microlithography projection objective, with at least one specific lens.

Group II, claim(s) 11 and 12, drawn to an end plate as can be used in a microlithography projection objective.

It is noted that claimed 13 and 14 were cancelled.

2. The inventions listed as Groups I and II do not relate to a single general inventive concept under PCT Rule 13.1 because, under PCT Rule 13.2, they lack the same or corresponding special technical features for the following reasons: Group I is directed to the lens system and Group II is directed to an end plate. Neither of these inventions has linking technical features as claimed, such as claimed structural characteristics which

Art Unit: 2873

correspond to the claimed features of the other invention as claimed. The inventions are independent of each other, as recited.

3. Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a request under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).
